Dow Fort Saskatchewan Load
Notice of application filing

Thank you for your ongoing participation in the Dow Fort Saskatchewan Load project. We submitted an application for the project to the Alberta Utilities Commission (AUC) on June 6, 2025.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, scroll down the main page and click on the 'Access here' option under 'Access to the eFiling System' and log in to your eFiling account. If you do not have an account, select 'New personal account' or 'New organization account' and follow the steps on the screen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, enter Filing number 30094 into the 'Go to…' search bar on the top of the page to locate the application.

If you have any issues accessing the application, please contact us at the phone number or email address below and we will mail a copy of the application to you.

Project background

To connect Dow Chemical Canada's (Dow) substation Main Site BLK 80 1199S to the grid, AltaLink is proposing changes to its transmission system within the City of Fort Saskatchewan and Sturgeon County.

To connect Dow's proposed project to the grid, AltaLink is proposing to:

- build two new 240 kilovolt (kV) single-circuit transmission lines between Dow's project and AltaLink's existing substation called Lamoureux 71S
- modify existing transmission lines to accommodate the construction of the two new lines
- remove the conductor and select structures from the existing D782L transmission line that is no longer in use and is not connected to the grid
- add or modify associated structures and equipment as needed
- install underground fibre optic cable and optical ground wire

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at https://www.altalink.ca/project/dow-fort-saskatchewan-load/.

Sincerely,

Kris Gladue
Manager, Stakeholder Engagement
